ICON showcases Polycom voice solution for Healthcare at HC2011

St Albans, UK, 30th March 2011: ICON is proud to support Polycom at the HC2011 show by showcasing Polycom's voice solutions for health and social care applications.

ICON, a centre of excellence for voice on-site mobility solutions and the UK distributor of Polycom DECT and SpectraLink voice solutions, provides marketing, sales, and installation support for Channel Partners without the need for qualification.

ICON, will be showcasing the Polycom KIRK voice mobility solutions for healthcare along with examples of the 7000 series handsets. The 7000 series handsets have been designed with health and social care applications in mind. These handsets are the number one choice where hygiene or cleanliness is a concern, or personal safety an issue. They are IP rated and are resistant to disinfectants. A range of alarm icons means the handsets are ready for integration with third party healthcare, monitoring solutions. Mark Shane, sales manager at ICON commented

"The Polycom IP voice solutions with their health and social care sector specific handsets are a growth opportunity for us and our Channel Partners. We look forward to helping our Channel Partners sell into this key sector with the range of Polycom healthcare solutions"
